LPS National Flood is a Leader in Accuracy and Service

LPS National Flood is the leading flood provider servicing 7 of the top 10 lenders and we welcome the opportunity to service your flood compliance requirements. LPS National Flood offers a host of benefits.

- **Financial Stability** - LPS National Flood is widely recognized and trusted within the industry servicing over 10,000 lenders. Determinations are backed by a \$15 million E & O policy.
- **Customer Service** - Our responsive, professional staff will provide prompt and superior customer service.
- **Speed & Accuracy** - LPS National Flood maintains the highest automation rate in the industry so most of your flood zone determinations are delivered within seconds. When an order needs to be manually completed, our extensive team of

mapping experts will complete the order in just a few hours.

- **Reliability** - The LPS National Flood processing system is available 24/7 and is the most reliable system in the industry. Your team will not experience any order disruptions.
- **Extensive Reporting** With over 20 different reports available at your team's fingertips, they will be able to pull current orders, identify orders currently in process, obtain order history reports and much more.
- **Performance Monitoring & Activity Analysis** A key component of ensuring that our firm is exceeding our customers requirements is our internal and external reporting. Our team closely monitors the order versus delivery time, for both automated and manually completed orders.

Now Exclusively from LPS National Flood
Get CertMap® and know for sure. CertMap is an aerial image of a subject property with a street map and flood layers that show loan officers the proximity of a property to a flood zone.
